Dear Sirs/Madams:

I am writing on behalf of the National Leased Housing Association (NLHA). Our organization represents nearly 500 organizations involved in the provision of federally assisted rental housing. Our members are developers, managers, lenders, housing agencies and owners of affordable housing with primary emphasis on Section 8 and the Low Income Housing Tax Credit program.

We strongly support the Community Development (CD) focus in the proposed revisions to the "Interagency Questions and Answers Regarding Community Reinvestment," to increase the flow of private capital to underserved areas, and help restore the important role of CD activities in the overall Community Reinvestment Act (CRA) framework.

- The Agencies' reaffirmation of favorable CRA consideration for bank investments in statewide and regional multi-investor funds will help incentivize private capital to meet pressing community development needs. For statewide and regional funds that rely on a number of different depository institutions to invest in CD activities like tax credits, the revisions offer greater assurance that banks will receive full CRA credit for their investments in such funds.
- There is also recognition in your proposals that CD lending and investing by pooled funds that both meet community development needs and also diversify banks' risks, takes

time, and the CRA should continue to foster innovative responses to community development needs.

- The efficient deployment of CD lending and investing requires flexibility, and the Agencies explicitly recognize that “at some point the institution’s assessment area[s] may receive some benefit.” The revisions will help us meet the urgent needs in distressed neighborhoods in our communities, while at the same time making sure we chart a sustainable path forward beyond the current economic conditions.
- “Earmarking” projects financed with pooled funds, and “side letters”, create disincentives for banks to participate in multi-investor funds, and undermine the objectives of pooling funds from multiple institutions. Side letters can also restrict the CD funds’ ability to cross-subsidize the more complex deals with simple ones. A pro-rata system whereby banks receive CRA credit equal to the share of their investments has worked successfully for years.
- We urge you to finalize the revisions as soon as possible. Given current economic conditions, we respectfully request that you do not delay issuing the final community development Q&As until the full set of revised Q&As is completed.

Thank you.

Sincerely,
